

Falcon Garden Club Sixteenth Annual

Secret Garden Tour

Saturday, July 22nd, 2017

Please join us for the Falcon Garden Club's *Sixteenth Annual Secret Garden Tour*. This area of Colorado presents unusual challenges to gardening such as low rain fall, hail, poor soil, high altitude and a large rabbit and vole population. These garden displays demonstrate how we have adapted our gardens for the eco system. This tour offers ideas so we can learn proven techniques and ways to improve the landscape and value of our homes. *Look for a Falcon Garden Club sign in the front yard or driveway.*
